PROJECTS

Text-to-Video AI Generator LINK	Sept 25 - Oct 2025
◦ Developed an AI-powered application that converts text topics into narrated short videos. ◦ Integrated OpenAI/Groq for script generation, Edge TTS for narration, and Whisper for captions. ◦ Automated video assembly using MoviePy and ImageMagick, producing complete rendered videos ◦ Built an interactive Streamlit interface allowing users to input and download generated videos.	
Deep Learning-Based Image & Video Colorizer LINK	Jul 2025 - Sep 2025
◦ Developed an AI-based tool to colorize black-and-white images and videos using deep learning. ◦ Used pre-trained CNN models to predict color information (LAB color space). ◦ Built an interactive Streamlit web app to upload and colorize media in real time. ◦ Handled frame-by-frame video processing and smooth color transitions using OpenCV.	
Personal Portfolio Website LINK	Jan 25 - Feb 2025
◦ Designed and developed a responsive personal portfolio website to showcase projects and skills. ◦ Implemented using HTML, CSS, and JavaScript for a clean and user-friendly interface. ◦ Hosted the website on GitHub Pages for public access. ◦ Includes sections for projects, contact information, and personal introduction.	

CERTIFICATES

Introduction To Artificial Intelligence(AI) - IBM CERTIFICATE
◦ Gained the fundamental concepts and applications of AI in various domains
AI For Everyone - DeepLearning.AI CERTIFICATE
◦ Learned how to understand what AI can and can’t do, and how to use it strategically in real-world work or business decisions.
Introduction To Java– Leran Quest CERTIFICATE

- Learned about Java expressions, operators, branching and looping statements, to write simple Java code
